EXPERTISE

Frameworks and Libraries:
React.js, Node.js, React Native (Beginner), Tailwind CSS

MarkUp and Styling:
HTML, CSS

Programming languages:
Java, C, Python

Database:
MySQL, MongoDB

Version Control: Git

Tools: Figma, GitHub

EDUCATION

Kongu Engineering College
Bachelor of Engineering
Computer Science and Engineering
CGPA - 8.49*
2022 - Present

Vikas Vidyalaya Matric Hr Sec School
HSE
91.33%
2020

St.Joseph's Matric Hr Sec School
SSLC
94.2%
2018

LEADERSHIP

- Placement Coordinator (2023-2024)

PROFILE

Ambitious full-stack developer with a strong focus on front-end development and hands-on coding experience. Good in designing user-centric applications, solving programming challenges, and delivering efficient solutions. Patient, optimistic, observant, and possess great communication skills, which enhance my ability to work effectively on diverse projects.

PROJECTS

Recipe Finder App
https://picky-recipe-finder.vercel.app/

A web application enabling users to search recipes by name or category, view detailed instructions, ingredients, origin, YouTube videos, and translations in multiple languages. Features include a wishlist module and ratings based on average user reviews.
Tech Stack: React.js, Node.js, MongoDB, Firebase
API: TheMealDB API, Microsoft Azure Translation API

KEC Food Court App
https://fc-app-psi.vercel.app/

A smart food ordering platform designed for students to avoid long canteen queues and ensure timely meals. Features include browsing dishes, viewing daily specials, adding items to the cart, making secure payments, and an admin panel for managing specials, orders, and receipts. The app streamlines the food ordering process for a more efficient canteen experience.
Tech Stack: React.js, Python, MySQL

Anonymous Messaging App
https://ghostly.netlify.app/

An app allowing users to send anonymous messages with text and emojis to a static admin. The admin can view, update, and delete messages for efficient management. The system supports seamless functionality through CRUD operations and offers a clean, responsive interface.
Tech Stack: React.js, Node.js, MongoDB

Vehicle Monitoring App

A mobile app designed to track vehicle performance and driver behavior, monitoring real-time data like fuel levels, speed, and GPS location. It offers secure OTP-based login and provides detailed analytics for better fleet management. The app ensures seamless real-time communication for efficient monitoring of heavy vehicles.
Tech Stack: ReactNative, Node.js,SQLite

INTERNSHIP

- AI/ML Internship, jointly conducted by Generative AI Consortium and SystimaNx Pvt Ltdt

---

CERTIFICATIONS

- MongoDB Associate Developer
- JP Morgan's Excel Certification

ACHIEVEMENTS

- 1st prize in Brain Baffle event, KEC
- 1st prize in Mathcon event, KEC
- 3rd prize in Mystery box, KEC
